Dodge Dynamite! Peter Grist
2015-01-29 Since the 1950s, Dodge has produced a series of charismatic performance cars that have given the company a unique reputation among American car makers. The original Charger and Challenger and the more recent Viper and Caliber SRT are outstanding examples of the company's commitment to cars of high performance and aggressive styling. Peter Grist's pictorial history of these typically American machines gives a fascinating insight into their ancestry and evolution and

celebrates the huge impact they have made on the road and on the track. His account is an exciting introduction that will appeal to everyone who is interested in American automobile history. When the first Dodge performance cars were conceived in the early 1950s, they were a brave step for a company that was well known for its dependable saloons and pickups. Peter Grist describes this change of direction and the radical new thinking that resulted in the creation of the innovative Dodge Hemi V8 of 1953. This remarkable engine provided the power for the first sporting Dodges and led to the race-

bred D-500 series of 1956, the first Dodge Muscle car. But Dodge's reputation for creating big, potent, sporting cars was really consolidated in the 1960s and early 1970s the muscle-car era when the Dart, Charger and Challenger were so successful on the road, the race track and drag strip. The book features these historic cars and the drivers who have raised Dodge to a pre-eminent position over the last 50 years. Featuring illustrations of Dodge's styling experiments and concept cars, which had such a strong effect on their production models, from the first Dodge concept the 1954 Firearrow up to the most recent Challenger and Hornet.

The book brings together an evocative collection of over 200 photographs and adverts that offer a unique look at ALL of Dodge's fast cars in one book. this is an entertaining and informative guide to the Dodge tradition which will be essential reading for Dodge enthusiasts and for everyone who enjoys their cars at full speed.

Club AutoRape 01/04/2000

Rib Rufus 2015-05-22

What you are about to read takes place on a distant parallel earth whereupon automobiles so happen to be living creations.

There exists upon this parallel earth a collective of six individuals who refer to themselves as Club AutoRape.

They do not see the automobile in the same light as many others and find its existence to be utterly offensive. In a quest to gather the necessary resources to one day give an

automobile the kind of treatment it so deserves, these individuals managed to utilize a sliding device and a top-secret military program to their advantage. They have constructed a compound existing on a parallel earth designed for the sole purpose of disciplining the automobile. These individuals have furthermore taken advantage of a top-secret military program in which they have become what could only be considered as redesigned humans with android properties. Using the very best of cybernetics and nanotechnology, these individuals have been given the ability to alter their strength and

their heights at will. With the ability to reach heights of twenty feet, one of these individuals could theoretically rip a car apart with his bare hands. It took these individuals ten years to construct a compound so designed to make what would otherwise be nothing but a fantasy a reality. These are the stories of these individuals and the cars they have captured for discipline. It is advised to first read the introductory story, then feel free to indulge in the torture and destruction of an automobile.
